

FRONT DOOR POLICY

Dear Crystal Tower Owners,

The Board of Directors has implemented a policy limiting the type of door lock that can be installed on individual units. The only lock that has been approved for installation, other than the original Falcon Lock Set, is the KABA 660K. **Furthermore, the KABA 660K must be IC prepped so that it will accept the Crystal Tower core.** For further details, please contact the Property Manager: 251.968.5324

The reasoning behind the policy is so access can be gained with only one master key in the event of an emergency, and it also aides in keeping uniformity in the appearance of the property.

Thank you for your cooperation in this important matter.

Very Truly Yours,

Crystal Tower Board of Directors

FALCON
