Re: Annual Meeting May 8, 2021

The original plan was to attempt to set up a Zoom Meeting for the Annual Meeting for those who might be unable to attend in person. We have had a local computer service company and computer backup trying to work with the theater to set that up. They do not have WIFI service at the theater and they have a company policy that does not allow anyone to bring equipment into the building to provide service.

Consequently, we will not be able to host a Zoom Meeting on the 8th. If you are able we urge you to attend the meeting. If you are not then please send in your proxy at least for purposes of having a quorum. We will mail out any handouts that are available at the meeting to anyone that is unable to attend.
